

## BB SOLAR REFERENCE LIST

BB Solar company was founded in 2011 in Podgorica . The main activity of the company is the design and construction of all types of electrical installations of high and low current, as well as renewable energy sources. We have a lot of experience in the field of designing and performing electrical installation works, where we have gained a reputation for our professional work, respect for deadlines and top quality work performed on a very large number of different projects and facilities of all types: public lighting, roads, highways, residential and business facilities, industrial facilities, commercial, hotel and catering facilities. buildings, business-shopping centers, substations, transformer stations.. We cooperate with the most eminent European and world manufacturers of equipment and materials in our field so that we can offer you the best price-quality ratio.

Successfully we carried more than hundreds demanding projects in our country which prove that project we perform perform are long - lived , stable and efficient .

### Hotel Regent

Decorative lighting

### Luxury villas LV01-LV04

Performing electrical installations of high and low current

## BB SOLAR REFERENCE LIST

### Southwest Bypass

Performing works on electrical installations of high and low current

### Bemax Arena

Performing electrical works of high and low current

### Lustica Bay

Carrying out electrical works of high and low current on several buildings

### United Nations Eco Building

The first solar power plant

## BB SOLAR REFERENCE LIST

### Wind park "Možura"

Works on the production of cable lines, grounding of wind generators and installation of optics

### TS Popovici

Construction of cable line 35kV 2x (3x (XHE 49A 1x240/25, 20/35kV)) TS 110/35kV "Bar" to TS 35/10kV "Popovići"

### Hotel Hilton

Delivery of lighting and electrical accessories

### Music center

Delivery, installation, connection and commissioning of the substation TS 1070.4 kV 2x630 KVA

## BB SOLAR REFERENCE LIST

### Science and technology park

Execution of hydrotechnical installation works, high and low current electrical installations, photovoltaic power plants, CSNU IEMP, thermotechnical installations, sprinker installations, ventilation and smoke removal of new installations

### Luštica Bay-Marina

High and low current installations

### Petrović Castle

Installation of high and low current

### Russian Embassy

Procurement of the necessary material and equipment and execution of works on the construction of electrical installations of high and low current

## BB SOLAR REFERENCE LIST

### Bar-Boljari highway

TS 20/0.4 KV with cable distribution 20KV and remote control system for powering facilities along the highway route

### Golubovci-Tuzi bypass

Dismantling, assembly and maintenance of lamps

### mHe Skrbuša

Carrying out all types of works on the construction of an electric power facility for

### Substation "Buche"

Performing works on high current electrical installations

the production of electricity, a small hydroelectric power plant "Skrbuša"

## BB SOLAR REFERENCE LIST

RB	CUSTOMER	THE PROJECT	YEAR	LOCATION	DESCRIPTION OF WORKS	VALUE
1	Elcon doo	Obod Building - Street Njegoševa on Cetinje.	in 2012	Municipality of Cetinje	Execution of electrical installations of high current	€79,582.49

	Savnik			Savnik	installations of high current, delivery and installation of photovoltaic panels for the production of electricity	
104	PTT Engineering doo	Carrying out works on the 35kV cable line at the building Bjeliši - Topolica and 35kV Bjeliši - Končar.	in 2015	Municipality of Podgorica	Carrying out works on the cable line	€18,749.12
105	EPCG	Carrying out works on the construction of cable line 35kV 2x (3x (XHE 49A 1x240/25, 20/35kV)) TS 110/35kV "Bar" to TS 35/10kV "Popovići" (construction includes laying of cable lines 10kV 2x(3x(XHE 49A 1x240/12, 12/20kV))	2016	Municipality of Bar	construction of cable line 35kV 2x (3x (XHE 49A 1x240/25, 20/35kV)) TS 110/35kV "Bar" to TS 35/10kV "Popovići"	€222,486.32
106	Bemax doo	Delivery and laying of power cable 12/20kV for the needs of the facility "Tivat - Kotor waste water treatment plant".	2016	Municipality of Tivat	Laying the cable	€160,144.25
107	Meso-promet doo	Construction and electrical installation work on the laying of the power cable for the "Stari Aerodrom" Business Center in Podgorica .	2016	Municipality of Podgorica	Construction and electrical installation works	€17,835.67
108	Toškovići doo	Performing electrical works on the laying of 10 kV cable from TS 35/10 kV Jezerine to MBTS Base Station, Municipality of Kolašin	2016, 2017	Municipality of Kolašin	Performing electrical works	€178,552.60
109	Bemax doo	Carrying out works on high current electrical installations for the construction of the electric power facility (substation) Buče TS 35/10	in 2014	Municipality of Berane	Performing works on high current electrical installations	€18,959.85

## BB SOLAR REFERENCE LIST

110	Cijevna Komerc doo	Delivery, installation, connection and commissioning of the substation TS 1070.4 kV 2x630 KVA for the needs of the building during the extension, reconstruction and adaptation of the former Military Home in Podgorica, for the needs of the Music Center, the Montenegrin Cinematheque and the State Protocol	in 2014	Municipality of Podgorica	Delivery, installation, connection and commissioning of the substation TS 1070.4 kV 2x630 KVA	€101,150.00
112	Bemax	Development of the Main Project and execution of works on the construction of TS 10/0 , 4 kV Možura with decaying cable lines, on the territory of the Municipality of Ulcinj.	2017 and 2018	Municipality of Ulcinj	Works on the production of cable lines, grounding of wind generators, as well as works on the production of optical installations	€1,306,719.48
113	Novi Volvox doo	Carrying out works on the construction of a system for permanent power supply of the highway Bar-Boljare, section Smokovac-Mateševo	2019, 2020, 2021	Smokovac - Mateševo	TS 20/0.4 KV with cable distribution 20KV and remote control system for powering facilities along the highway route	€10,001,717.30
114	CEDIS	Development of the Main Project and execution of works on the construction of a 10 kV plant in TS 110/10 kV Kličevo	2020, 2021	Municipality of Nikšić	Development of the Main Project and execution of works on the construction of a 10 kV plant in TS 110/10 kV	€1,448,793.50
115	Technopot - MNE	Procurement, delivery and execution of electrical installation works on STS 1x160 kVA with SN SKS 10kV line House Rakića - Tuzi	in 2021	Municipality of Tuzi	Execution of electrical installations of high current	€41,165.06
116	Bemax doo	Zero point grounding	in 2014	Municipality of	Delivery of equipment	€94,248.00

## BB SOLAR REFERENCE LIST

				Berane		
117	Municipality of Danilovgrad	Performing electrical installations of high current, namely: relocation of existing cables and lighting installations for the construction of access roads to parking garages with accompanying installations , Municipality of Bijelo Polje.	in 2013	Municipality of Danilovgrad	Carrying out works of electrical installations of high current	€9,871.53
118	Eurozox doo	Performing electrical assembly works on the construction project of the 35 kV transmission line Nedakusi - Bistrica , Bijelo Polje.	2020	Municipality of Bijelo Polje	Electrical installation works	€50,820.00
119	Hydro Logistics doo	Carrying out all types of works on the construction of an electric power facility for the production of electricity, a small hydroelectric power plant "Skrbuša"	2020	Municipality of Kolašin	Execution of all types of works	€1,678,094.05
120	Elektroprivreda Crne Gore AD	Performing electrical works on the ecological reconstruction of the thermal power plant "Pljevlja" - Block I	in 2021	Municipality of Pljevlja		<i>Project in progress</i>
121	Bemax	Performing electrical works on Bulevard Podgorica Danilovgrad	2021	Danilovgrad	Carrying out all works of electrical installations of high current and public lighting	
122	Opština Podgorica	Performing electrical works on Bulevard Podgorica Tuzi Faze II	2022	Podgorica	Carrying out all works of electrical installations of high current and public lighting	
123	Bemax	Performing electrical works on Bulevard Viliija Branta	2023	Podgorica	Carrying out all works of electrical installations of high current and public lighting	
124	Bemax	Performing electrical works on	2023	Podgorica	Carrying out all works of electrical
